Dear Parent

Greetings for the Day !

Gurukul shapes young children into future responsible citizens with a wonderful twirl of modernity with tradition. Therefore, we try to inculcate in them the basic value to be humane first.

The month of April signified the change and strengthened the compassionate bonding between the teachers and the students, where the teachers welcomed their students with Tilak.

The month of May ushers the taste of summer, with bouquet of activities and celebrations. Each activity at Gurukul is the food for the mind and growth for the body. This month brings the summer holidays which is always fun!

However the scorching sun may dip down the excitement for the kids. Nevertheless it's going to be a carnival time! Gurukul has planned to learn, mammoth to explore and lots of fun. This bunch of exciting and entertaining indoor activities and explorations will be quite a treat.
