

'A dream becomes a goal when the action is taken towards its achievement.'

Dear Parent

Warm wishes from Team Gurukul!

Creating a joyous schooling experience with an emphasis on individual learning styles to chisel the latent skills of students, Gurukul The School continues its legacy of **application based multi-dimensional education**.

THINK, ANALYSE and RELATE are the key components that the Gurukulites acquire, imbibe and endorse, through every package of their learning. With an energising head start of session 2018-19, the month of May envelopes in its ambit, **educational visits, inter- class activities** and **thought kindling discussions**. The students of classes III – V will be gearing up for their **first Unit Tests**. Regular revisions and a **consistent study pattern chartered by the teachers** and **reinforced at home** will help the children to excel. To ensure that the students have a constructive Summer Break, an insightfully designed Holiday Homework is in the making, and will soon be shared.

All in all, an eventful month ahead!
