Dear Parent

Heartiest Greetings from Team Gurukul !

Ambition is an uncomfortable companion many a times. It sometimes creates a discontent with present surroundings and achievements. It is never satisfied but always pressing forward to do better things in future. Restless, energetic and purposeful, it is ambition only that makes the creature a real human being. This overmastering desire is propelling the ship of the student-life forward to face the final examination and finally anchor on the most appropriate shore—SUCCESS!

Time is rolling by swiftly and the month of November is waiting with many fêtes and festivities. Along with the prolonged Diwali merriment, Eid-UI-Milad, Guru Nanak Jayanti and Children's Day are also round the corner. As it is said, "**The best time is the present,**" so the need of the hour is to enjoy the present and prepare for the future with all the persistence. Take delight in the festivities but never leave your ambition— a multifaceted persona ought to be reflected in all words and actions.

Wish you good luck for a pollution free month of celebration!
