*“Teachers are the backbone of any country, the pillar upon which all aspirations are converted into realities.”*

*~ Dr A P J Abdul Kalam*

Dear Parent

Greetings from Team Gurukul !

A genuine educator is the one who has the qualities of peacefulness, simplicity, purity, tolerance, honesty, wisdom and faith in omnipotence. At Gurukul The School, we believe children watch and learn by what we practice and not what we preach. Teachers and parents must be a role model since their present actions lay the foundation for the nation's future.

Recently, we bid adieu to the thrilling month of August which was packed with numerous academics and co-scholastic activities. Nonetheless, this coming month will not only witness the Gurukulites expressing their gratitude towards their teachers who keep on spurring them for their future endeavours, but also their single-minded projection and conscientiousness of the students as they pull up their socks and sleeves for real action in the academic arena. As the assessments are round the corner, the aroma of different spices like discipline, dedication, devotion and determination can be caressed in the air which will certainly cook up a nice cuisine—SUCCESS!
